

Dear Brothers of the Great Lakes/Gulf Presbytery,

As members of First Reformed Presbyterian Church of Grand Rapids, I'd like to reiterate our desire to have presbytery's involvement in the current matters in our congregation. This is something that I had publicly communicated during the open forum held on January 26th, and I believe that it is of the utmost importance to the future and health of our congregation for presbytery to send a visitation committee.

This has been very difficult for our family, as it has been for our whole congregation, and the hope is with the involvement from presbytery that clarity and healing can begin for our small flock.

The Lord bless you and your work.

In Christ,
Brenden & Elizabeth Boudreau
